#### Remarks

Before CPA, claims 1-9 were on appeal and claim 10 was allowed. The Board Decision affirmed the rejections over claims 1-9. The claim rejections relied on the following references: United States Patents Nos. 3,756,693 to Ota, 3,870,517 to Ota *et al.*, and 5,650,872 to Saxe *et al.*, and Japanese patent application number 64-86116 by Naoyuki *et al.*

Claims 1 and 6 both have been amended to recite that at least one of the electrodes has a color that affects the visual state of the claimed capsule. None of the above references describes or suggests a colored electrode or the use of a colored electrode to affect the visual state of a display capsule. Accordingly, Applicants respectfully submit

that the all the claims as amended by the Preliminary Amendment contained herein are allowable over the references on record.

**CONCLUSION**

If, in the Examiner's opinion, a telephonic interview would serve to clarify issues and expedite the prosecution of the present application, the undersigned attorney would welcome the opportunity to discuss any outstanding issues, and to work with the Examiner toward placing the application in condition for allowance.

Respectfully submitted,
